Thanks,

It's on the agenda for tomorrow's 10:30am meeting, so I will request the data then.

Melissa

Subject: Asbestos testing at WV Chemical Leak

Hello,

As we were sampling the PCF site today Joe P. Informed me that they received the asbestos sampling results for the gaskets at the WV Chemical Leak site. He stated that some of the gaskets were asbestos positive.

I just wanted to let you know so you could request the results if you wanted copies if them.

Thanks,
